1. Use hand sanitizer and please stand 6 feet (2 meters) from other individuals while testing.

2. Remove tube from ziplock bag and scan barcode using the UCSD app right before doing the test, DO NOT scan and then take the test later on.

3. Check to make sure the number on the app’s confirmation page matches the number on your tube.

4. Peel open swab package and dispose of wrapper.

5. Insert swab tip 1cm (0.5in) into one nostril. Rotate tip against the septum 3 times. Hold in place for 15 seconds.

6. Repeat with other nostril.

*Having trouble with scanning the test kit?

- Login to the iPad and scan a test kit
- Call the service desk at (858) 246-4357 if you forgot your password or have trouble logging in
- Schedule a test at the Price Center

CDC.gov/coronavirus

Scan Submitted
Scan verified: 16:35:21

You may return to the home page now.

Next Steps:
- Proceed to the next step in the COVID testing process
- Results are usually available within 24-36 hours
- You can view your results by logging in to MyStudentCen
- If you are experiencing symptoms of COVID-19, stay in your residence and seek guidance from a healthcare provider
7. Unscrew tube lid. Break off swab tip into tube and dispose of the swab handle.

8. Screw on tube lid firmly.

9. Transport the tube in the ziplock bag to a dropbox. Your kit must be returned within 24 hours of sampling!

10. Drop your tube into the dropbox.

11. Dispose of ziplock bag in the trash can.

12. Use hand sanitizer.

STUDENTS, if results aren't back within 48 hours, please retest and email studenthealth@health.ucsd.edu
